State Auto associate to speak at CPCU luncheon

ERO Commercial Specialist **Darcy Keith** will be speaking at the October 11 Columbus CPCU Chapter luncheon at Da Vinci's Ristorante in north Columbus. Keith, who was involved in a life-altering automobile accident in her early 20s, has created a series of presentations called "Turning Quicksand Into Solid Ground." She was asked to speak on the presentation titled "The Miracle Child" at next week's meeting.

"My presentation will focus on how to make good choices when things happen that are not in your control and how to be happier by getting back and focusing on the basics of life," according to Keith. "Understanding how to persevere through tough times, learning how to beat the odds and achieve the unimaginable goals in life are a few of the items that I will cover."

Keith developed the series of presentations based on the lessons she learned from being the only backseat survivor in the fatal car accident. "I was a person who had everything going for me and in one short moment, I lost everything that I'd worked for my entire life... mentally, physically and emotionally," she added. "I believe mine is a story of hope, fortitude, perseverance, and determination. I hope it will be inspiring, and I will challenge those in attendance that if I can do the unimaginable, so can they!"

Columbus Chapter members can obtain more information and/or RSVP for the October 11 luncheon by emailing Judy Hinten at the Ohio Insurance Institute (judyh@ohioinsurance.org).
